

Curriculum Vitae - Morten Nielsen

Work History

2006 - Current date

Senior Developer at RemoteX Technologies

At RemoteX I started out integrating RemoteX Servad.Net with other business applications. Later I turned to product development and I am now a lead developer of the new cutting edge application coming from RemoteX Technologies. I also hold the Scrum Master role.

2004 - 2006

SI-instructor for a Java development course at the Royal Institute of Technology (KTH)

Using the SI-model I assisted the Java courses with extra teaching.

2003 - 2005

Level-1 support technician at Dell

I assisted Dell's technical support for Danish customers.

1999 - 2001

Visual Basic 6 Developer at Ovako Steel

Ovako Steel had just changed business system when I started working there. I developed minor integrations to assist the system change. I also developed some minor applications, some of which are still in use today.

Academic merits

2001 - 2006

Master of Computer Science at the Royal Institute of Technology (KTH)

With focus on distributed and parallel systems. My thesis is about concurrently searching a constraint program's solution tree, using different algorithms.

Noticeable side projects

2004 - 2005

Closed Community for a live theater group

A PHP application for administrating a live theater group, complete with per user messaging, threaded forums and document sharing.

2005

Bluetooth Ticket System

I was project leader for a small team creating a proof of concept for using Bluetooth in mobile devices for ticket systems. The project worked according to the RUP project model, and was developed in J2ME.

2008 - 2009

CutTime

A Web 2.0 application for booking time at the hairdresser. Created using Java open-source alternatives, focusing on scalability and cost effectiveness.

Languages

I master Danish, English and Swedish, in writing and verbally.
